### Does Your voice Reveal Your Secret Self?

Finding your true voice takes on new meaning when you begin to consider the possibility that the sounds of your voice may be a holographic representation of all that you are. Imagine a future in which our individual vocal frequency is our identification; where the use of frequency-based biomarkers contained within your voice can be used to keep you healthy and emotionally balanced.

From birth to death, we use sounds to express our needs and emotions but there are additional layers of information hidden within our words. As man evolved, language became levels of intricate harmony nestled within structures of great elegance that carried meaning and allowed understanding of ourselves and others.

Everything that happens to the body reaches the brain as biofrequencies that are then sorted, routed and assigned an interpretation but it seems, in modern times, that we carry very little conscious awareness of this information.

Did we as a human race forget, or were we forced to abandon a great deal of our intrinsic abilities to glean information about another person simply by hearing their voice?

The recent popularity of *The da Vinci Code* sparked interest in the possibility that a great deal of knowledge has been kept hidden from the general population. Is the idea that we have dominion over our lives through our thoughts and intentions an intrinsic fact of human spirit? Can we in truth chant the words and create our Reality?

The obvious success of the tide-turning movie, *The Secret*, showed that people are ready to accept the fact that we can think or say something and have it manifest. Have we matured enough to receive the bounty of consciousness-produced reality with wisdom? Do people really know what

they want, deep down, devoid of old parental “tapes,” advertising, peer pressure, the “oughts” and “shoulds” that we are subjected to daily?

If we want to manifest our neighbor’s car or wife for ourselves is this a lack of respect or our basic right of conscious intention? If we accept the reality that we all fit, perfectly into the perfectly conceived, perfectly interlocking puzzle of life, then how can we allow any two people to want the exact same item? Someone would do without and therein resides a basic problem. If we both pray for the same thing, who gets the prize? So how can someone “program” their lives with the voice of prayer and mantra without bumping into the needs and rights of others?

Many spiritual leaders, though-out the ages, have claimed that we have the power to be who we want to be, to have what we want. Could it be that

Christian Bible:

the world is designed perfectly and if we really knew the ideal life to manifest, then everything would be in harmony? But how can we ever know what will perfectly balance our lives? How can we know what we really want underneath the layers of greed and need? We can find our true voice and identify the true voice of others.

Nothing is hidden from your own voice. You may be able to lie to your friends and deceive yourself with your words, but the voice does not lie. Vocal Profiling computer software has been built that can evaluate the frequencies, architectures, and harmonics of your voice. Vast frequency-based databanks can now be used to create a report of what you really think, who you are emotionally and the status of your health. The frequencies missing from your voice are just as important as those that are present. An entire matrix of information, from your DNA to your partner preferences can be evaluated.

Using this modality, your voice can be used to reveal who you really are under the layer of public personality you have created. This is an opportunity of the human race to break free of all of the deceit and deception that we live with on a daily basis.

What would our world be like? Our legal system would be unneeded if your true voice could be so easily read: Unsound relationships would crumble, businesses would fall because for the most part, our world is built on what we can keep hidden from those who think they know us.

Vocal Profiling has the ability to let us know the intentions of our leaders, the motivations of our partners, the pathway to our sense of self. Would that be of value or an avenue toward destruction?

What would the world be like if everyone only spoke the TRUTH? Can you image a society where we are all known by our frequency signatures that

people could read through a voice that truly represented who we are? Could finding our true voice allow us to create a world full of grace and dignity?

BioAcoustically Speaking we loudly proclaim that truth should be valued as a virtue. Should it have taken a computer program for us to discover our internal truth and clarity?

## BIOACOUSTIC CORRELATES FOR AUGUST 2022

Frequencies bombard the earth in a yearly cycle. Here, we attempt to report active frequency correlates for each week. Sensitive people will begin to notice the effects 8-10 days earlier than others.

For most of August the muscles of the neck and upper back will be stressed along with B vitamins and their co-factors. Expect fatigue unless you load-up on B vitamins and B Vitamin-containing foods. The Literature suggests that NAD, a supplement, is great for those suffering from Covid fatigue.

### Jul 31 – Aug 5

Iron comes into play this week, further stressing fatigue symptoms. Cellular inflammation initiates this week. There are lots of anti-inflammatory articles on the internet. Breathing may become strained as the diaphragm comes into play. Nerve-sheathing biochemicals are active.

### Aug 7-Aug 13

This is be kind to your liver week. It is working overtime to produce the enzymes and hormones that you need. Lyme pathogen frequencies begin to come active this week.

## Aug 14-Aug 20

Herpes Simplex, Hepatitis Pathogens are active this week. Stress on B vitamins continues. Inflammation frequencies deepen.

The Vitamin K gene, along with selenocysteine (enzymes and detox) and gout-causing biochemicals come into play at the end of the week.

## Aug 21-Aug 27

Allergic reactions bloom all this week. Control of mast cell reactions will be tricky. Tooth plague will be more noticeable. Iron and nerve sheathing issues may be more noticeable - restless leg symptoms for example may be more bothersome.

Spine issues deal with the neck (C-2), Thoracic – spleen, pancreas, gallbladder (T-7) and prostate, legs (S-2), lower spine

MSG as a toxin may cause increased brain fog.

## Aug 28 - Sept 3

Some beginning throat and tongue irritation may be noticeable. More Covid symptoms may appear as hemorrhagic virus becomes active (clotting). Abdominal muscles become stressed and may cause more low back pain.

Several issues dealing with male performance are beginning to climb.

B1 is more stressed than other B vitamins this week. Boron (known to support bone health and alleviate the pain arthritis), a mineral is activated.

It will depend on your brain dominance how you react to these frequencies. Play it safe and watch for your body's responses.
